155 Aastveit, A.H. and Aastveit, K.: Genetic variation of development stability in barley
269 Abstracts of papers presented at the eleventh meeting of the Scandinavian Association of Geneticists
127 Announcement
288 Announcement
171 Árnason, Ú. and Widegren, B.: Different rates of divergence in highly repetitive DNA of cetaceans
149 Árnason, Ú. and Widegren, B.: Studies on ribosomal DNA in cetaceans (whales)
103 Bigner, S. H., Mark, J., Mahaley, M.S. and Bigner, D. D.: Patterns of the early, gross chromosomal changes in malignant human gliomas
69 Brandt-Rosquist, K. and Lüning, K.G.: Double fertilization in *Drosophila melanogaster*
235 Buraas, T. and Skinnes, H.: Genetic investigations on seed dormancy in barley
37 Christiansen, F.B., Frydenberg, O. and Simonsen, V.: Genetics of *Zoarces* populations. XII. Variations at the polymorphic loci *Pgm I, Pgm II, Hb I* and *Est III* in fjords
137 Clapham, D.H. and Östergren, G.: Immunocytochemistry of tubulin at meiosis in *Tradescantia* by a protein-A gold method
119 Folkeson, D.: The use of BSG-staining in making a more detailed nomenclature possible for interchange systems in *Pisum sativum* L.
227 Folkeson, D.: Free segregation between a (3S−7S) interchange and genes within linkage group VII in *Pisum sativum*
9 Gustafsson, M. and Larsson, C.: Variation in the patterns of virulence and the relative fitness of virulence phenotypes in Swedish populations of *Bremia lactucae*
265 Hedner, K., Wadstein, J. and Mitelman, F.: Increased sister chromatid exchange frequency in chronic alcoholic users
257 Hejgaard, J., Bjørn, S.E. and Nielsen, G.: Rye chromosomes carrying structural genes for the major grain protease inhibitors
223 Hoffmann, M., Hagberg, S., Karlsson, A., Nilsson, R., Ranstam, J. and Högstedt, B.: Inorganic lead exposure does not effect lymphocyte micronuclei in car radiator repair workers
57 Hussain, S.: Dose-response relationships for mutations induced in *E. coli* by some model compounds. Addendum, Osterman-Golkar, S.: Reaction kinetics in water of chloroethylene oxide, chloroacetaldehyde and chloroacetone
1 Hvilsom, M. M. and Theisen, B.F.: Inheritance of allozyme variations through crossing experiments with the blue mussel, *Mytilus edulis* L.
19 Knuutila, S., Teerenhovi, L. and Borgström, G.H.: Chromosome instability is associated with hypodiploid clones in myelodysplastic syndromes
253 Knuutila, S., Heinonen, K., Hongell, K., Varonen, S. and Simell, O.: A duplication within the critical fertility region of X chromosome in a mentally retarded woman with normal menarche
209 Korpelainen, H.: Genetic differentiation of *Daphnia magna* populations
79 Lake, S. and Cederberg, H.: Recombination in females carrying a homozygous inverted X-chromosome in an inbred line of *Drosophila melanogaster*
179 Luomajoki, A.: The tetrad phase of microsporogenesis in trees with reference to the annual cycle
267 Merker, A.: Hybrids between *Trifolium medium* and *Trifolium pratense*
143 Muona, O., Allard, R.W. and Webster, R.K.: Evolution of disease resistance and quantitative characters in barley Composite Cross II: Independent or correlated?
31 Nokkala, S. and Nokkala, C.: Achiasmatic male meiosis in the Heteropteran genus *Nabis* (Nabidae, Hemiptera)

245 Pamilo, P., Varvio-Aho, S.-L. and Pekkarinen, A.: Genetic variation in bumblebees (*Bombus, Psithyrus*) and putative sibling species of *Bombus lucorum*
217 Parkkinen, E. and Schröder, J.: Assignment of a gene coding for a cell surface antigen with a molecular weight of 90,000 to human chromosome 3
261 Prina, A.R. and Hagberg, A.: A barley mutant with chromosome condensation in late tetrad stage
205 Rønne, M.: Fluorouracil synchronization of human lymphocyte cultures. Induction of high resolution R-banding by simultaneous exposure to 5-bromodeoxyuridine/Hoechst 33258 in vivo
129 Simonsen, V. and Christiansen, F.B.: Genetics of *Zoarces* populations. XIII. Three loci determining isoenzymes of glutamic-oxaloacetic transaminase
49 Sirén, M. and Portin, P.: *Cis-trans* tests at the Notch locus of *Drosophila melanogaster* suggesting multiple *cis*-acting control sites inside the locus
123 Teeri, T., Saura, A. and Lokki, J.: Chloroplast DNA from *Calamagrostis* species by selective lysis of organelles
115 Valentin, J.: Genetic control of meiosis: the *eq* gene in *Drosophila melanogaster*
199 Vernole, P., Neri, G. and Serra, A.: A new banding technique of rat (*Rattus norvegicus*) chromosomes
75 Vest Pedersen, B.: The effect of anoxia on the survival of chromosomal variants in larvae of the midge *Chironomus plumosus* L. (Diptera: Chironomidae)
85 Vuorinen, J.: Electrophoretic expression of genetic variation and duplicate gene activity in vendace, *Coregonus albula* (Salmonidae)
97 Vuorinen, J. and Piironen, J.: Inheritance and joint segregation of biochemical loci in European whitefish, genus *Coregonus*
